Map (1)

Geologic Map of a Portion of the Northwest Apache Mountains, Southeast Culberson County, Texas, U.S.A.
Walter L. Kennedy
2007
The University of Texas at Arlington

Contour Interval:
6.096 m
or 20 feet

Map Scale

0 km
1 km
1 mile

N
Legend for Geologic Map

Faults
Major Inferred Fault Fault

Measured Section

True North
Magnetic North

Gravites
(subaqueous gravity flows)

Formations and parts of formations

- Quaternary Alluvium
- Rustler Formation
- Unconformity
- Castile Formation
- Transition zone between Castile Formation and Bell Canyon Formation
- Bell Canyon Formation (E-F-section packages IV-VII)
- Reefal Debris
- Bell Canyon Formation (below E-F-section gravite and above strata occurring above the G-section)
- Bell Canyon Formation (B, A, and G-sections)

System | Series | Stage | Formation
--- | --- | --- | ---
Late Permian | Lopingian | Wucaiyingian | Castile Rustler
Middle Permian | Guadalupian (upper portion) | Capitanian (upper portion) | Bell Canyon
