TEXTBOOK PROJECT RETURNS

The Textbook Project is a program that offers a selection of 1000- and 2000-level textbooks that can be checked out for two hours.

Single copies of the textbooks are stored in the Reserves area of Central or Science and Engineering Library, depending on the subject. The textbooks must remain in the library and copying is permitted. Electronic copies of textbooks are not available.

To check out a textbook, get the call number of the book and go to the location indicated on the record. At the service desk, present the call number and your MavID and the book will be retrieved for you.
