Dear old Thosty:  
Hell, kid, if all  
of the upper-class-  
men had been as  
nice to me last year  
as you were I wouldn't  
have minded being a  
Freshman at all.  
You have surely  
been a swell friend,

our friendship will

## DEDICATION

WE take great pleasure in dedicating this 1932 JUNIOR AGGIE to two men who have endeared themselves into the heart of every student of the North Texas Agricultural College by their undying generosity with their time and patience, Mr. Eugene E. Davis and Mr. S. A. Lynch.

EUGENE E. DAVIS

S. A. LYNCH

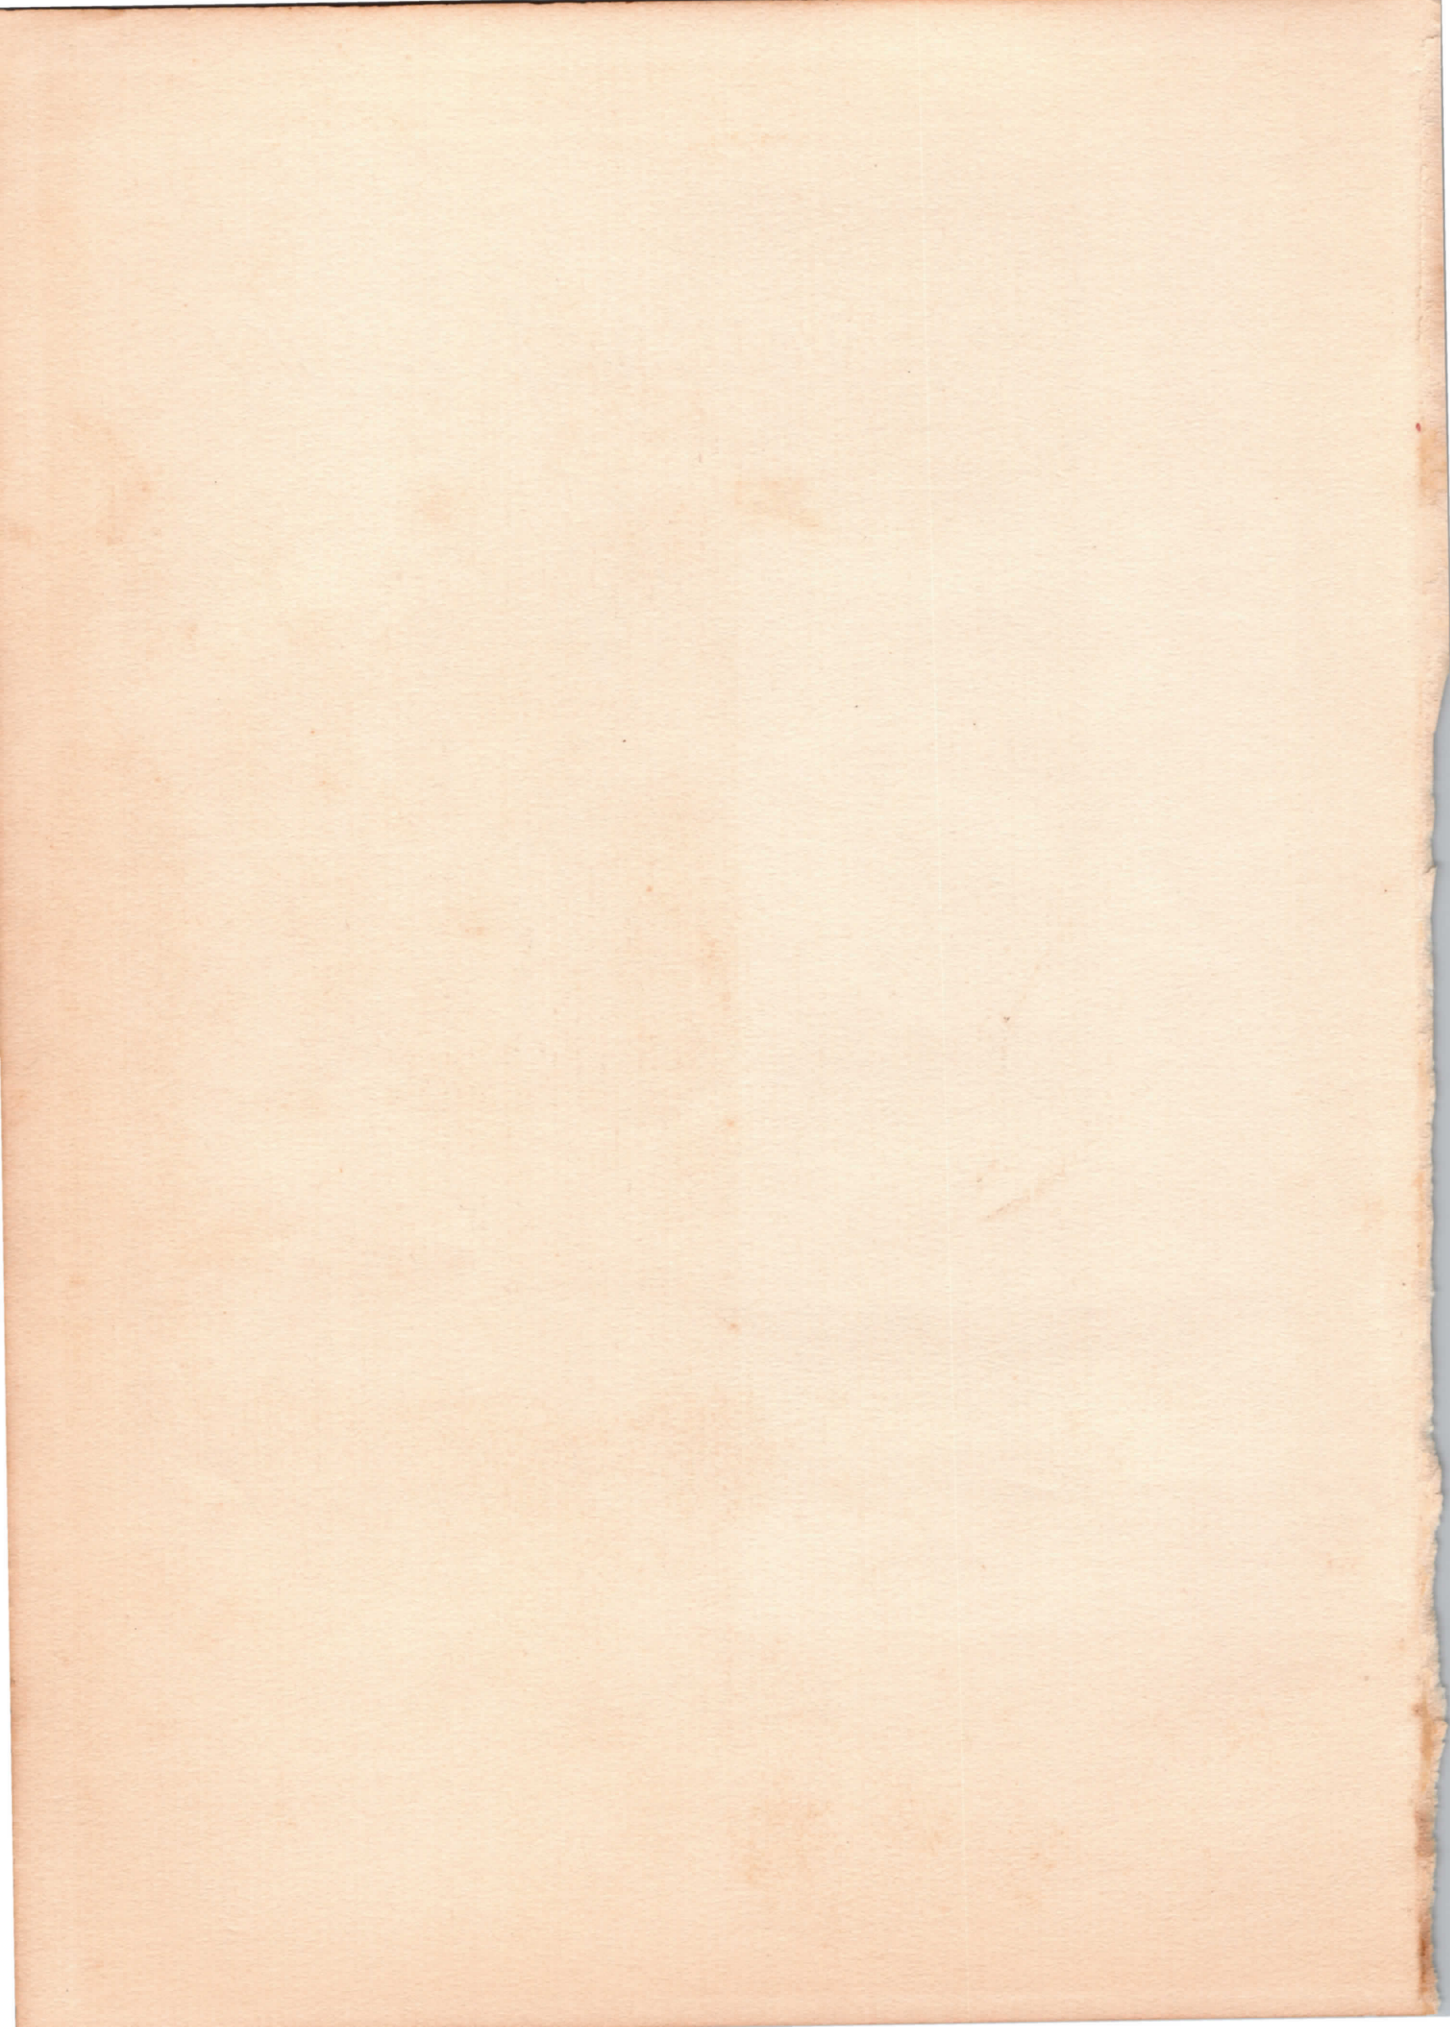

His old horse died and his mule went lame,  
And he lost his dummy in a poker game,  
The photographer came one bright Spring day  
And shot the side of his office away;  
Then dynamite came—the act of some goof,  
And nearly blew the school from under its roof;  
The engraver came and looked around,  
And tried to haul away half the town;  
The shock was so great that he hopped up and died,  
And his widow and kids just cried and cried,  
But something was left for the brats and wife,  
The theme of his book was called "School Life."

Be KIND to your dogs—  
wrap them in Celophane.

And here's Webb about to  
say a mouthful.

And, girls, here's Tommie  
Hill, ready to hit that line.

What is it that draws the "Fem" sex to our own  
little Adcock?

Not casting reflections on the mess hall—why is it that so many campus students hang out here during mealtime?

Oh Gee, Oh Gosh, Old Glory!

Exams make anyone gloomy.

If they enjoy this as much as English 401-2, school is a huge success.

It takes Parrish to keep notes and McFarland to drive stakes on one of Smith's intricate problems.

Blushing Martha Lee,  
Mule's greatest weakness.

Does anyone  
know this  
guy?

Now, girls, take him or leave him;  
he's here for your own good, but  
don't let Liz catch you too near  
him.

We see now why Wills  
Point is on the map.

This reminds one of the moon—  
admired but not reached.

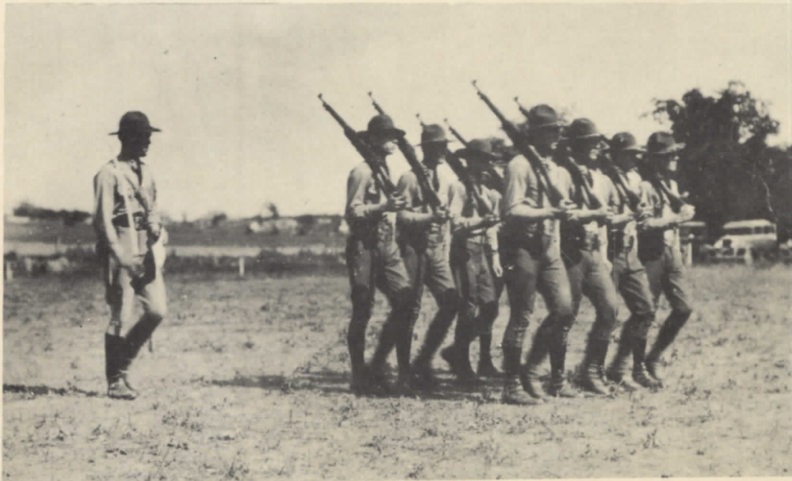

We can't understand  
why a good-looking  
dame like this won't face  
the Camera.

Some of Camp Aggie

The Military phase of college life offers the cadet more than the same old everyday drill. We find Guthrie winning first place in the individual competition.

These men get a certain thrill out of competition drill because it shows that they have precision in movements and a good knowledge of drill. Simmons seems to be putting the old boys through the mill in good fashion.

There seems to be nothing wrong with the meals at Camp Aggie. And we find "Fish" Laurens striving to be a good soldier; he shouldn't take it that serious, however.

These girls are dressed for a formal dinner-dance—believe it or not.

The freshmen love the upperclassmen at dear ole N. T. A. C.

This shows the technique used on Ozzie and others.

We know now what makes radiators boil.

And we come to Verschoyle and his harem, out for a big time. "Where's the car, Rowe?"

And then came the story of the two boys that had to walk home.

What happens while the Aggies aren't in a classroom? They pose to explain matters.

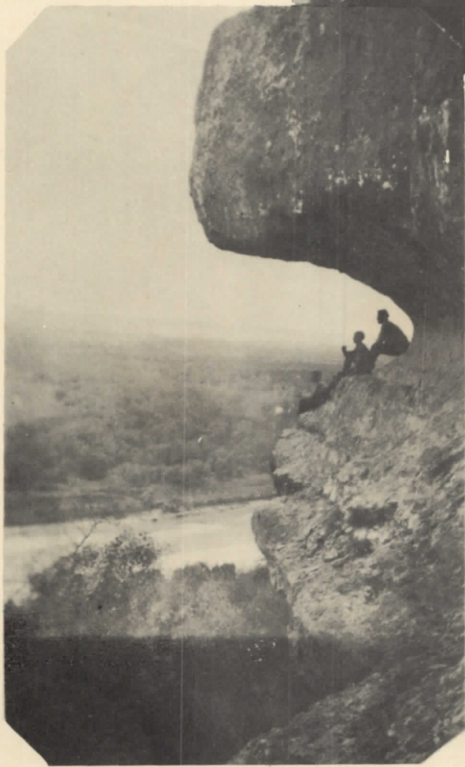

This, my children, is the first event that took place after the order was issued that there would be NO MORE HAZING.

This was probably the most terrific struggle of the year, however, it was refereed by Santa Claus in good fashion.

The B. S. S. saw some pretty views on their Xmas trip.

"The Grand March," led by Paxton and his staff through Arlington, back to the main ball-room, where Mr. Preston gave the inside dope.

Where there's a will there's a way—and  
where there's an R. L. there's a girlie.

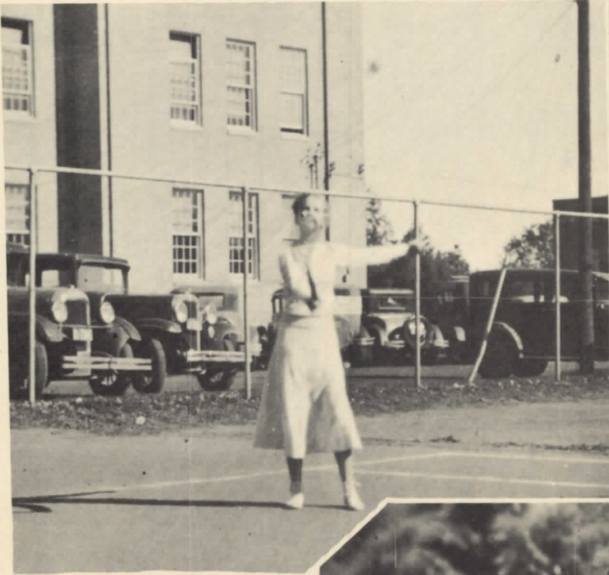

The B.S.S. goes on a trip to

reality of everyday life"; this is a  
minor motive, however.

Whenever the Aggies win a hard-fought battle, they usually celebrate by making it pretty hot around the campus.

As we all know him—CLARK.

OH WELL—They do this only  
once during their lives.

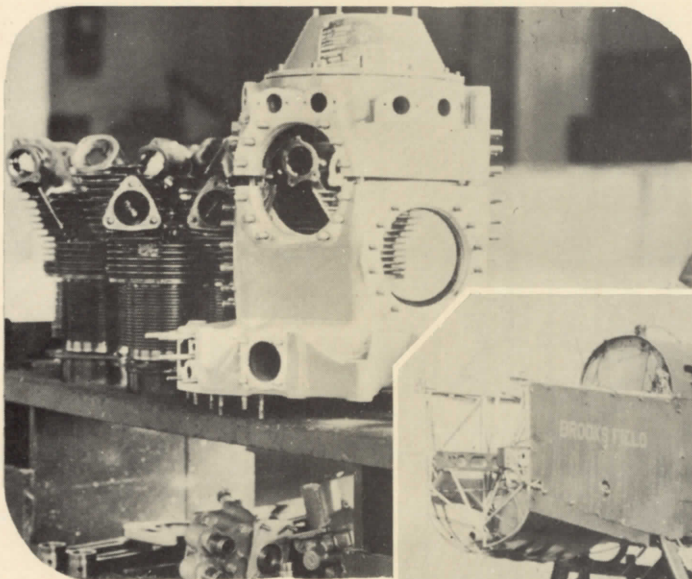

Believe it or not, these flossies  
are really chasing butterflies.

These girls are dressed for a  
Weenie roast, one of those  
high-class affairs, you know.

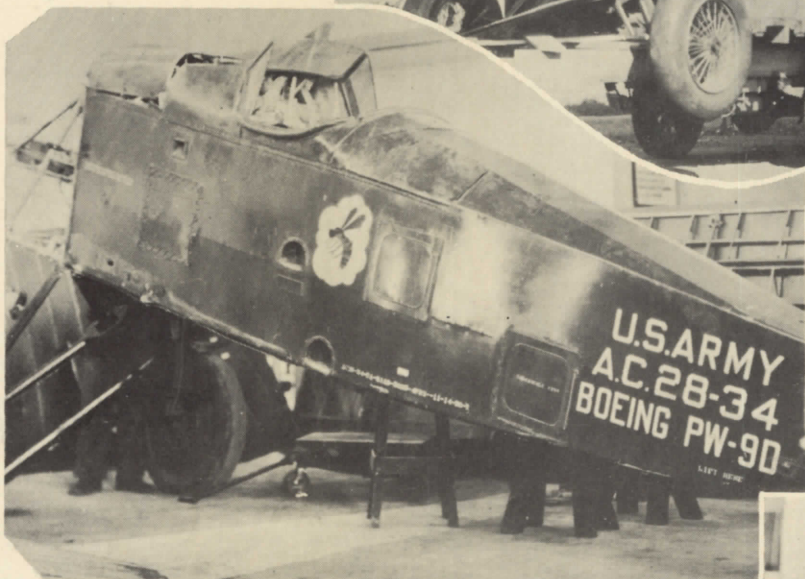

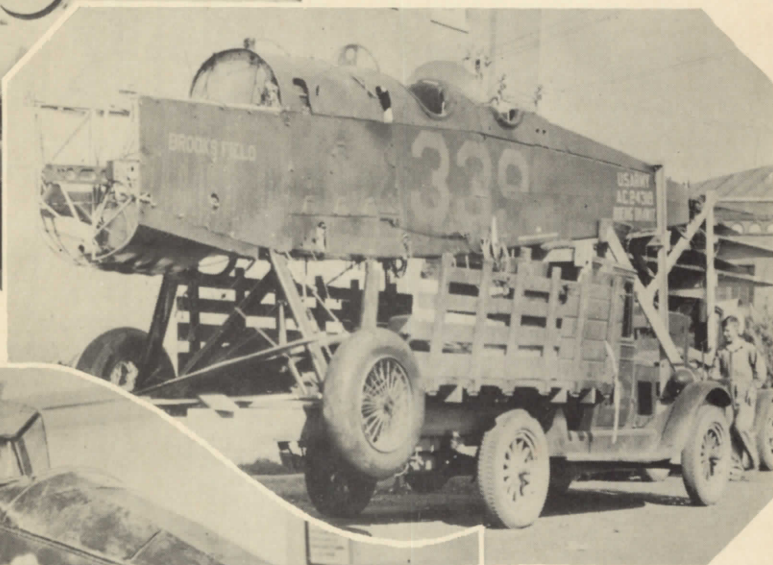

How could any one man get so many  
girls together except for a picture?

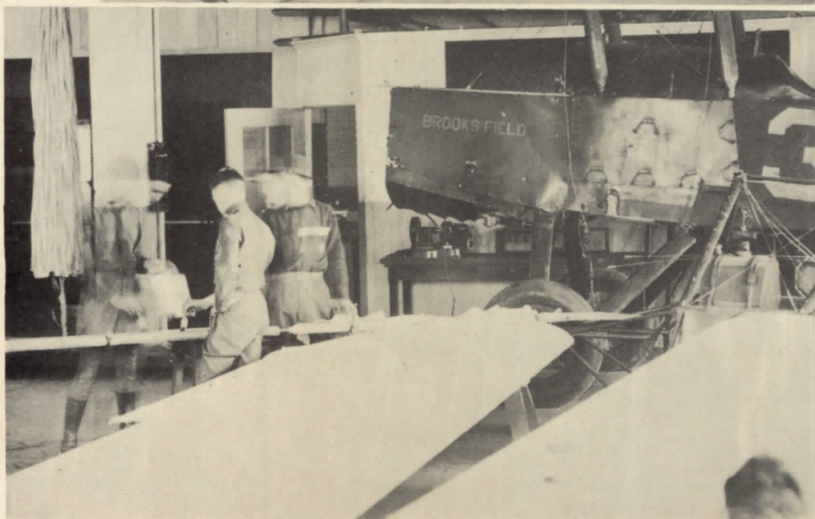

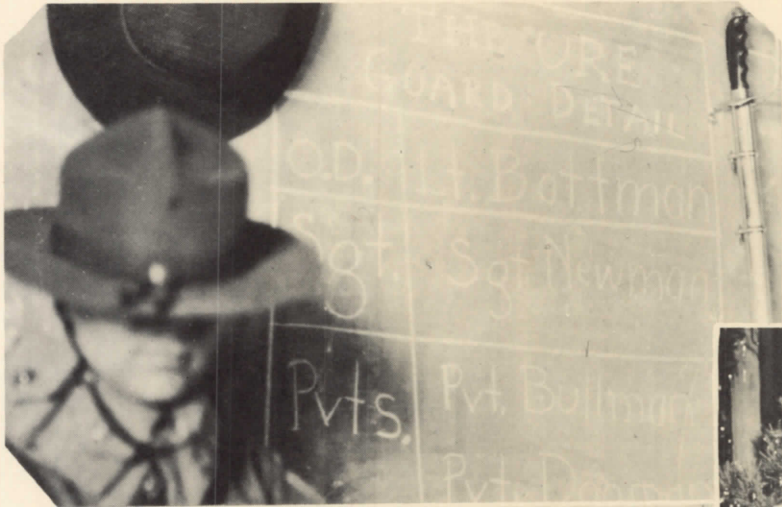

## AERONAUTICS

This course is offered to those who plan to be "Aces" of the Air; Mr. Gregory has given expert instruction in this line.

The process of making airplanes is one of the most interesting ones offered at Aggieland.

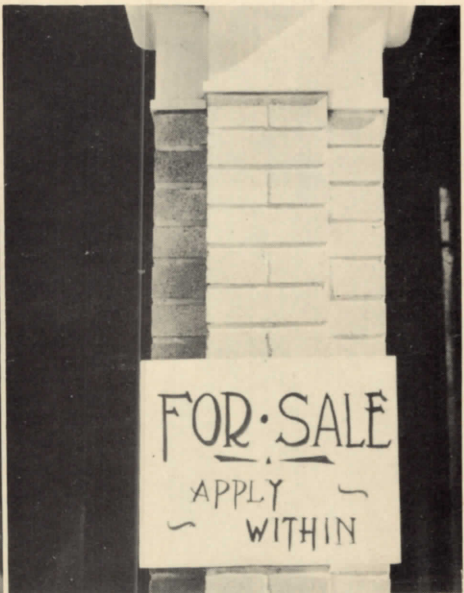

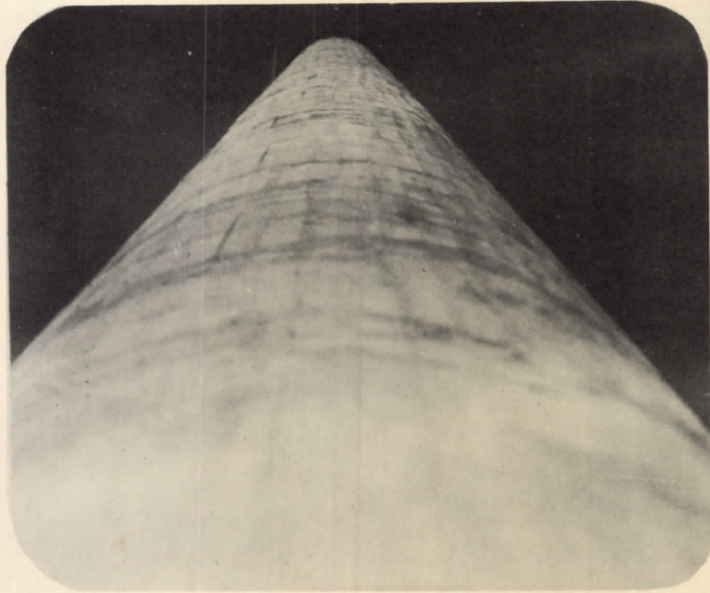

WHO SAID  
THEY DON'T SLEEP  
ON GUARD?

We didn't really know that  
there was a Santa Claus un-  
til we went to the Xmas  
Dance.

It is not often that N.T.A.C. is  
visited by the Angels—and it is  
seldom, indeed, that Paxton and  
Hubba.d are Angels.

## EXECUTIVES

### PRESIDENT T. O. WALTON

Mr. T. O. Walton is President of the Agricultural and Mechanical College system. His office is in College Station, but he makes regular visits to N. T. A. C. The students of our college always look forward to and appreciate these visits.

Although their contact with him is slight, the students have learned to deeply appreciate and admire his sincere interest and hearty co-operation in all the various activities of the college. Through his unceasing efforts the school has been granted many greatly-needed improvements.

He is quite often seen about the campus at College Station and always fits in with any discussion that takes place among the students.

### DEAN E. E. DAVIS

We are indeed fortunate in having a man like Dean Davis in our midst, not only as the Dean of the North Texas Agricultural College, but also as our friend and advisor. Countless problems arise every day to be settled by his very versatile mind, aided by many years of experience, an excellent understanding of human nature, and last and most important, —an extraordinary amount of good common sense!

Dean Davis does not confine his duties to the desk alone, but spends quite a bit of time, summer and winter, on research trips all over Texas. We hesitate not a bit in saying that Dean Davis is well versed with the economic problems which are confronting the people of the Southwest, and especially Texas, today.

*E. E. Davis*

## DEAN GEORGE L. DICKEY

The old woman who lived in the shoe with her many children and numerous troubles had nothing at all on Associate Dean Dickey. He has more troubles and young folk to deal with than that unfortunate lady of the well known childhood rhyme, yet he does not bemoan his unfortunate lot in the least. On the contrary, he goes about his many tasks cheerfully and efficiently, seeming to derive actual pleasure from his dealings with students and student problems.

The Dean has many traits of which any man might be proud. He understands youth and the problems which confront young people, therefore, he knows how to help them. He is an exceptionally fine teacher, because he has the happy faculty of being able to make his classes interesting. Dry facts take on new and attractive forms under the magic of his words. Probably the outstanding characteristic of Dean Dickey is his marvelous efficiency. He has the ability to get things done. The position he fills

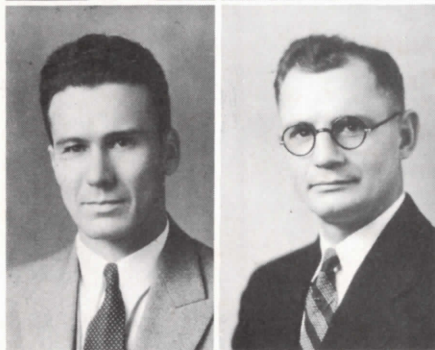

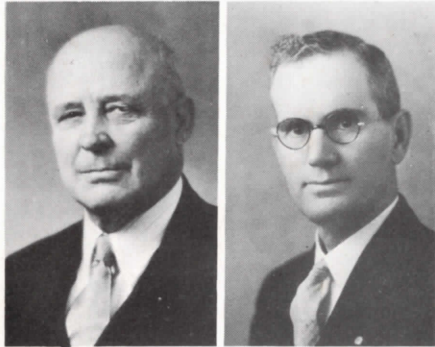

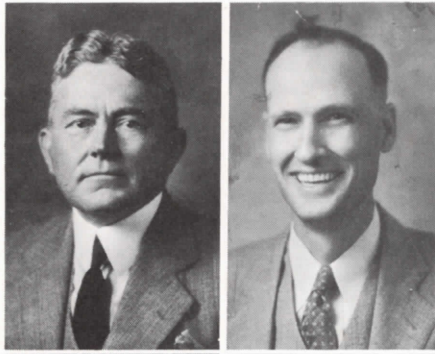

requires this of him and no one denies the fact that he more than meets the requirements of his job. He understands the fine art of the omission of unessentials and instinctively goes to the bottom of any matter. Herein lies the key to his success.

The combination and blending of traits which go to make up the personality of

the Dean make him a man who is admired and respected by all. We feel that he is something more than our friend and advisor, indeed, he is a great deal more than that. He is a man who has been weighed in the balances and has not been found wanting in any respect.

## EXECUTIVE COMMITTEE

The Executive Committee carries out the policies of the A. & M. system. As the highest ranking unit within this college, it advises with the Dean on all affairs related to changes in curriculum, regulations, admissions, and social activities. Its members are, at times, ready and efficient in executing policies that make for the good of the student body.

## THE LOCAL BOARD OF CONTROL

The North Texas Agricultural College is under the joint control of the Board of Directors of the Agricultural and Mechanical College of Texas at College Station and a local Board consisting of four members living in this vicinity. These members are appointed by the Governor, by and with the advice and consent of the Senate.

The functions of the local board are completely advisory, and all plans and matters of policy are submitted to the Board of Directors.

The members of our local board put forth every effort for the progress and betterment of our college.

Miss Chatham and Miss Johnson planning a program for a day when it is not dispensed with!

To our lower left we see Mr. Robinson just about to turn back for something that he has forgotten.

For the benefit of those who have always thought that Mr. Lynch can never stop and rest, he was very tired and actually stopped to take a rest.  
—Ripley.

Before riding in our car Miss Rawls and Miss Barber did quite a bit of their going about on foot. Now that they have ridden, they do all of it on foot.

Smith, Smith, and Smith, consulting engineers, all dressed up! They must be going somewhere!

Mr. Davis comes out from behind his tree and sees his shadow. Better watch out, six more weeks of drawing.

When Mr. Hughs and Mr. Barcus get together, we don't know just what to expect . . . animal or chemical.

We see here two of the faculty members, Mr. Lebo and Mr. McDonald, who have handed in their request to join the Rhythm Kay-dets. They say they are hot saxophone players. Photo shows them getting close harmony!

If one (or two happens to look closely they are apt to see some very attractive Juniors wandering about the campus with time on their hands!

Skating—one of the major sports of the Juniors this season.

Two promising young Juniors—yes, they'll promise anything!

Ah Ha! The Juniors have these little get-togethers too.

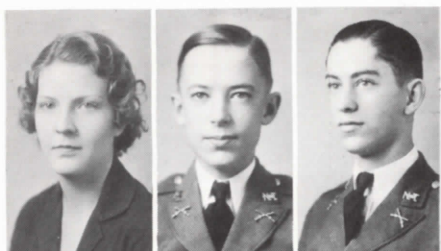

Young hopefuls who some day hope to be full fledged Seniors. After the past years' rigid training in Junior ranks, all should be ready to take up the many difficult tasks assigned to Senior students in this institution!

The Seniors look back on their protege's with a great deal of satisfaction and the casual remark that "the Juniors were as good as could be expected!"

The eyes of the Junior Aggie catch Mr. Stone "ANALYZING THE SICHATION" for them.

Some begin to wonder just when their job starts and when their school work begins. At least Sheffield couldn't be thinking about surveying.

At the time of the picture, Godfrey had only ten inches of steel to cut. We hope that he got through it alright.

A nickel says that he is trying to find out where all those wires lead to.

*Edgar H. Keltner*

**EDGAR H. KELTNER**  
Capt. Infantry, U. S. Army  
Professor of Military Science and Tactics  
Commandant of Cadets

An officer and a gentlemen (by more than an act of Congress), Captain Keltner is efficient and ever ready to advise or assist the men in any undertaking, military or otherwise. Wherever groups gather for the purpose of comradeship or technical discussion Captain Keltner is to be found among them. He is at his desk early and is often seen there until late. The efficiency of the corps and the moral of its men are his chief interests.

## THE BATTALION

Alphabetically Company A comes first, also first to the drill field and first to leave. A smooth company in every respect and a "Soldiering" outfit.

Before we go any further let's mention Company B. One of the largest companies in the Battalion with plenty of first class material. Hard workers and they haven't found a drill schedule yet that could stop any of them.

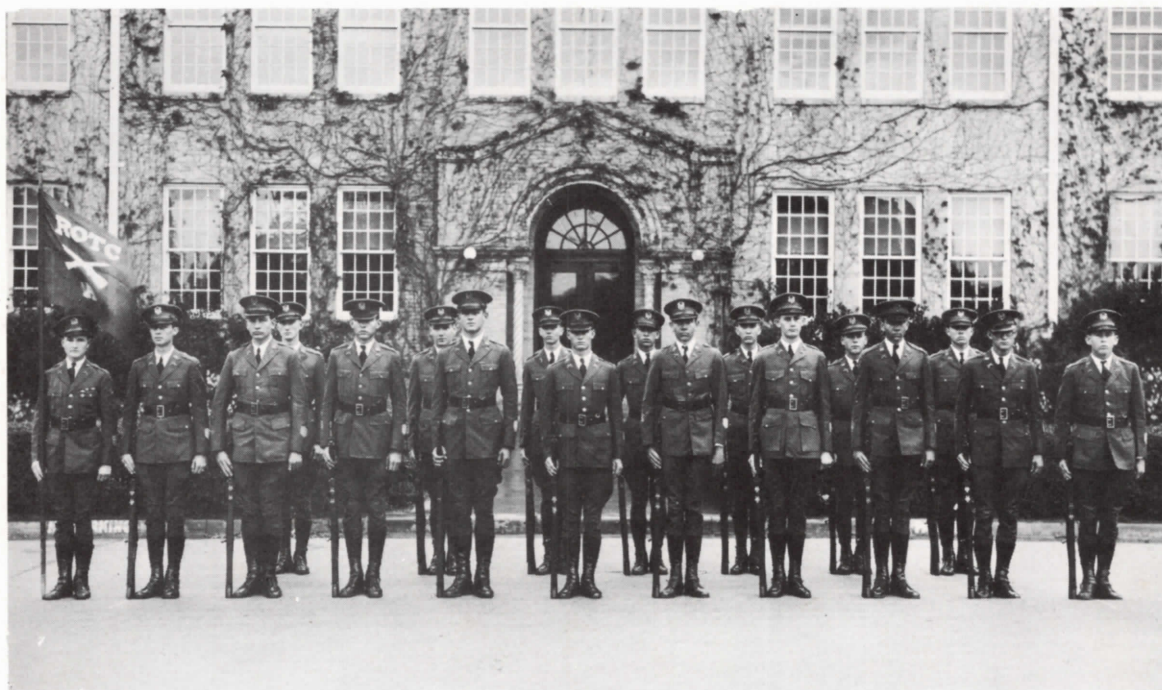

"Carry On" well exemplifies the motto of Company C. A crack outfit that drills and thinks in a snappy cadence. A fine "esprit de corps" is shown by officers and men in ranks alike.

Don't think that D company doesn't know their "Military." Down at the drill field or about the campus members of Company D are ready to function.

Enter the Battalion's newest member. Made up principally of new men, E Company has made a fine record. Sometimes called the "Second Battalion" because of the outstanding work done by this company.

Banded together in close co-operation for the benefit of everyone in the Battalion the Band is our "smartest" outfit, according to the grade points. A well drilled group and first class "windjammers."

Dear Shorty:-

Bottoms up to one of the greatest little, big men that I ever knew. You have worked hard Shorty and are deserving of any treat in this game called life that you may get.

As we learn school life and enter life school let us not forget the lessons that we have learned by hard knocks. And I am sure that we will never regret our sports here.

We will miss you Shorty but remember you are welcome to come back. If you are ever in Wichita Falls you may rest assured that I shall still be yours for the asking.

Sincerely wishing you the best of everything that you desire,  
yours, A friend

FOOTBALL

FIRST ROW: Lumm, Richards, Pratt, Harris, R. Gray, Hill, Simons, Coleman.  
 SECOND ROW: Fitzgerald, Nabors, Kaczmarek, Coombs, Simmons, Brown, Stephens, McMurtrey, Lotspiech.  
 THIRD ROW: Coach Dunsworth, Warden, Baumen, Gill, Dent, Peacock, Herndon, Ryan, Cannon, Gillstrap, Parker, Pease.

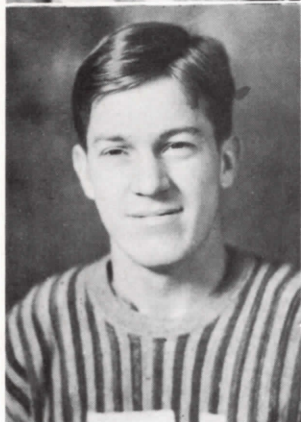

**CAPTAIN GRAY**

Bobie Gray and Tommy Hill served together as captains of the 1931 Hornet football team. Bobie played end and always gave a good account of himself. Gray broke up many of the opponent's plays, especially their passes and got down the field after punts in a little less than nothing.

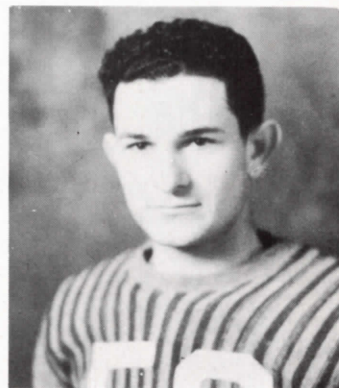

**SIMMONS, Back**

"General" was a good backfield man. This is Simmon's last year on the team and he will be missed a lot

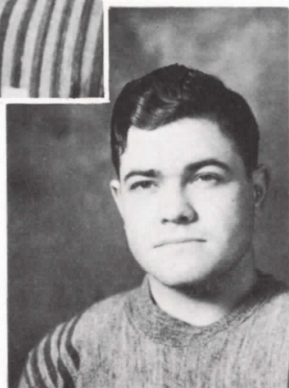

**CAPTAIN HILL**

Tommy was a great leader and fighter, and was one of the most popular members of the team. Hill was serving his second and last year on the team as a backfield man. Tommy was a good quarterback and passer

**COLEMAN, Guard**

"Mud" was a small man to serve at the guard position, but he always managed to make the opponents think that he was a good size man.

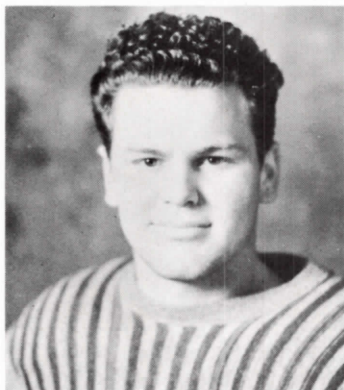

**SIMONS, Guard**

Simons served at guard. He often broke through the opponent's line to smear plays that were launched at him. On the offense John was one of the best the Hornets had.

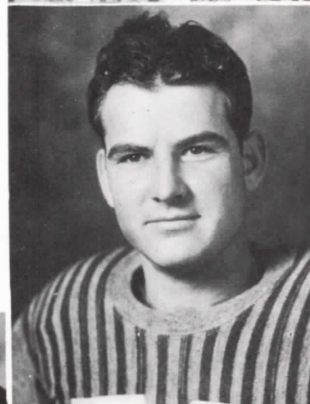

STEPHENS, Half

Jack is a halfback who can really run the ball. Stephens is a nice broken-field runner and knows how to return punts and is a good defense safety man.

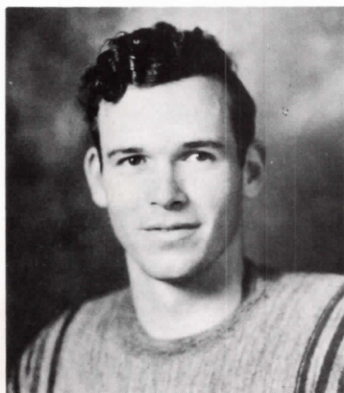

HARRIS, Halfback

Harris played in the backfield. He was large, fast, and could hit the line for good gains. Harris met with misfortune in the middle of the season, when he obtained a bruised jaw which threw him out of the lineup practically the rest of the year. He will be back again next year and will be a big help.

GILL, Guard

Gill started in the lineup with tremendous success, but he also was injured in the middle of the season and was left out of the lineup the rest of the year.

NABORS, End

Nabors, after a late start, returned to true form and began "snagging 'em." Lank also played a very nice defensive game for the Hornets. His specialty act being breaking up passes.

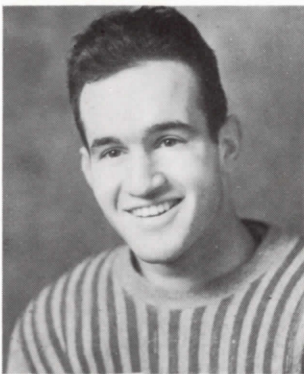

LUMM, Guard

Lumm played a good offense game for the Aggies and really showed well. This is Lumm's last year and he will be missed next year.

*Sweetest  
Alvin*

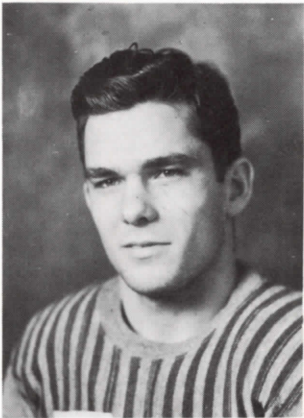

**RYAN, Center**

Ryan was a new boy who also met some back luck. He cracked his ankle in training camp, but recovered in time to play in some of the last games. He played center and tackle.

**COOMBS, Line**

Bob was an all around man. He is one man who could be depended upon to hold down his part of the game, and well too! Never did we ever see Bob with his spirit down. Good sports are not to be found everywhere, but Bob is one of those.

**RICHARDS, Center**

"Jimmy" was one of the mainstays of the team. When it came to backing up the line there was none better. Richards played a brilliant game at center all season.

**LOTSPIECH, Backfield**

Lotspiech is one of the outstanding players of the Junior Aggies. He was exceptionally good on the offense, and you could surely tell when he was in there. We are mighty glad to have him back again next year.

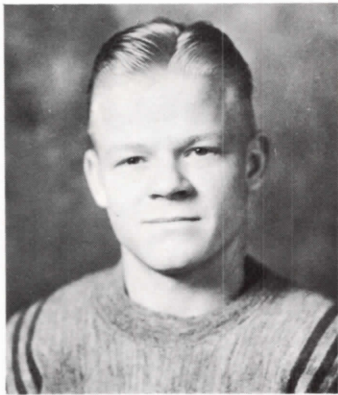

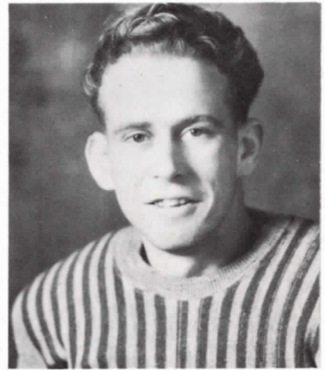

**FITZGERALD**

Fitzgerald started the season off fine. He is a good player on the line. Fitz stood out exceptionally well on the offense and will be back next year.

**McMURTRAY, Halfback**

"Sockfoot" played a good game for the Aggies. McMurtroy's ability to lead interference for our runners helped the Hornets to make many gains. "Sockfoot" was also very good as a defensive man.

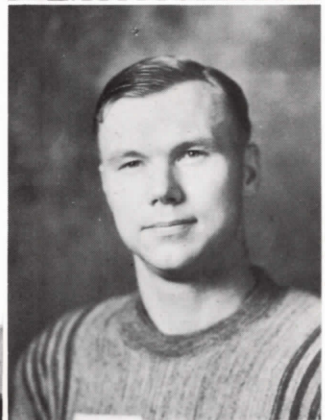

**PRATT, Halfback**

"Blondy" played a good brand of football all season. He was exceptionally good in running off tackle and around-end runs. Pratt should add much strength to the '32 team.

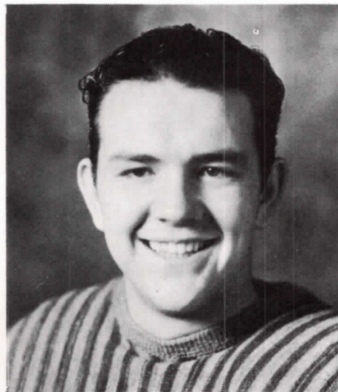

**KACZMAREK, Tackle**

"Swedie" Kaczmarek was a tackle that was fighting all the time. He specialized in tearing the opponent's line to pieces. "Louie" stopped many plays around his side of the line.

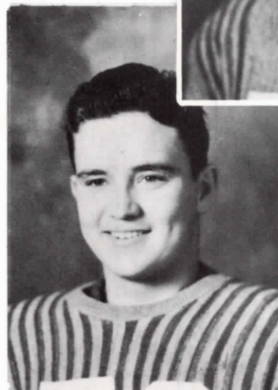

**CANNON, Guard**

"Frag" could stop anybody on his side of the line and could always be depended on to do that too. It looks like he has played his last year for us and we will miss him a mighty lot.

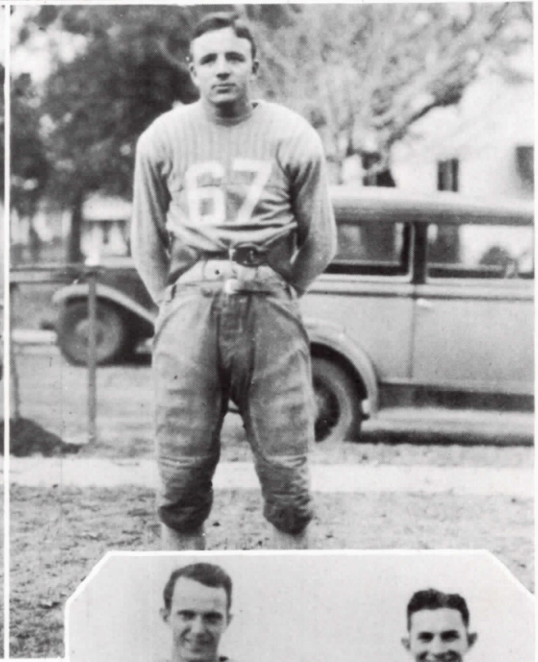

**BROWN, Full**

"Pappa" played fullback and his passing and broken field runs made him a dangerous man at all times. This is Brown's first year on the Aggie squad and he should be still a bigger help again next year.

## OTHER SPORTS

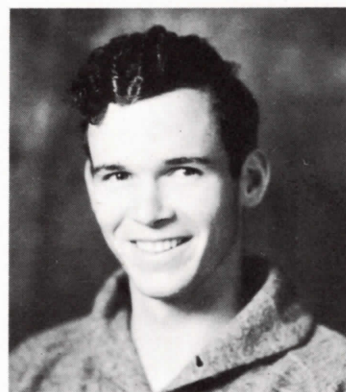

## BASKETBALL

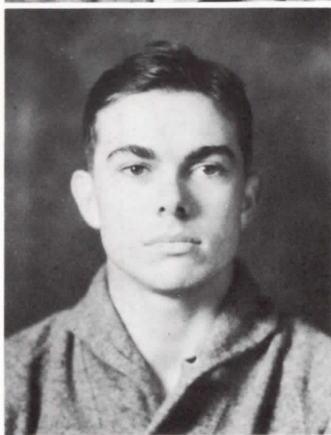

NABORS, Center

Nabors' ability as a basketball player does not rest alone on the fact that he is tall. "Lank" is a good all around player and is effective on any part of the floor.

CANNON, Guard

Football or basketball Cannon is equally effective in either sport. A quick eye and his willingness to co-operate makes him an asset to the Aggie team.

SPRUANCE, Forward

A new man to the Hornet squad but well acquainted with things basketball. Spruance has proved himself fine material and will be welcomed on next year's team.

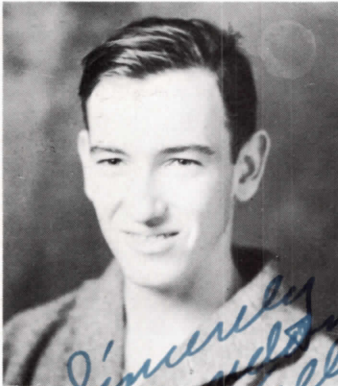

CURTIS, Forward

"What Every Forward Should Know" might well be the title of a book by Bill Curtis. His ability is well known to those who have seen him play.

## BASKETBALL

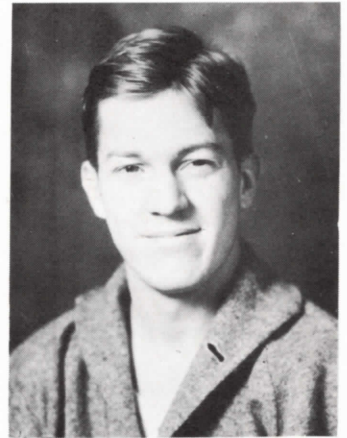

*Sincerely,  
Tommy Hill*

KELLY, Guard

Kelly is also new material to the Aggie team. He handles the ball exceptionally well and is well at home on the floor. Hope to see you back next year, Kelly.

HILL, Forward

"Tommy" is a great fighter and instills a spirit into any team on which he plays. He is always ready and is on the go until the last whistle.

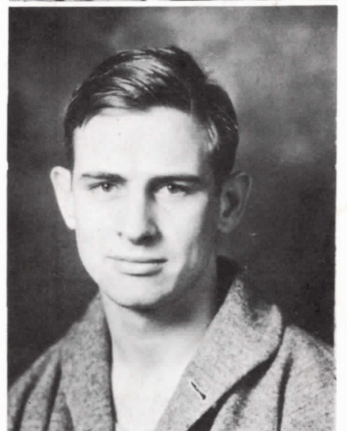

GRAY, Forward

There is nothing better than a close fought game to Robt. Altho basketball is not played that way Robt. would like to be in every play. His fighting spirit is an example to everyone whether in an athletic contest or in life.

PRUITT, Guard

Pruitt has been known to say much but his actions on the basketball court speak louder than any thing he could say.

Girl's Nine and then some

Well Shorty,  
It's kinda  
hard to express  
in a little  
place like  
this how much  
I really think  
of you. You  
are truly to be  
admired for  
what you've  
done here,  
working, making  
grades, and  
above all  
your ability  
of making  
friends. I've  
really enjoyed  
our many  
little talks  
together, as  
well as the  
late hours  
we've put  
in together  
at banquets  
and studying history.

that  
as  
you  
come  
down  
the  
straight  
and  
narrow  
path  
of  
life  
that  
success  
will  
always  
be  
yours  
and  
that  
you  
won't  
forget  
a  
real  
old  
aggie  
friend  
and

Shorty, I just hope an admirer of yours.

## SCHOLARSHIP SOCIETY

Two years ago a plan was introduced by the Phi Kappa Theta Club to promote more interest among the students in achievements of a scholarly nature. The individual students who make the best grades are honored by having their names placed in The Junior Aggie. The student making the highest number of grade points is rewarded by having his name placed in the Hall of Fame. Thus far in the history of the scholarship honor, five names have been placed in the Hall of Fame.

## DEBATE AND ORATION

The debate and oration season at N. T. A. C. was one of the most successful ones in the history of the school. Under the supervision of Mr. Duncan Robinson, debate coach, both the boys' and girls' teams staged several out-of-town no-decision debates. The subject was, "Resolved, That the Nations of the World Should Adopt a Policy of Free-Trade." Each member of the debating team was awarded a letter in speech at the close of the season.

The oratory division was made up of members of the public speaking class. Each person was required to write an original oration and memorize it. The orations were delivered before an audience and were judged. Ray Hynds won the boys' division and Pauline Wright the girls'.

This year, for the first time, the reporters have been brought together in a social way.

This year the Shorthorn is celebrating the tenth anniversary of its existence as a weekly newspaper. It was first published in 1919 as a monthly magazine, but was converted into a weekly newspaper in 1922.

The editor and business manager are elected by the student body. The reporters are chosen on their ability and willingness to write. Gold "T" pins are awarded to a representative number of reporters who have had the highest number of inches published during the year.

This year has been one of success for the club, for the membership of the girls has depended upon congeniality and good sportsmanship. Annually the Avolente girls entertain the football boys, and in the latter part of the year they entertain all the other girls' clubs of the college with a dance. At the big parties and dances given by the club during the year, the boys get in on the fun as well as the girls.

## SANS SOUCI

The Sans Souci Club was organized by Miss Ima Culley in 1923. In the past ten years the club has made an illustrious name for itself, as it is one of the biggest and best clubs on the campus. It is an organization of a limited number of girls which in 1931 and 1932 consists of thirty members. It is one of the most prominent social clubs of the North Texas Agricultural College, and its members include some of the most popular, best liked, and most efficient girls on the campus.

As the name implies, "without a care," the sole purpose of the club is for the advancement of pleasure through social affairs consisting of bridge parties, dinners, week-end parties, theater parties, and a dance each term. This year the club gave two of the biggest dances of the year, honoring first the other two girls' social clubs on the campus, and in the spring honoring the senior girls. Bi-monthly meetings of the club are held at which time prominent agriculturists or students address the club. Often times motion pictures procured for the Department of Agriculture are shown on agricultural subjects. One of the main objects of the Society is to make contacts with men in the engineering field and profit by their experiences. At the meetings the members hear speakers who have become masters in the engineering profession.

The organization has always been incentive to the advancement of school spirit, a spirit which has manifested itself among the entire student body.

## REAR ADMIRALS' CLUB

ROBERT GRAY  
President

There is a class of students in N. T. A. C. whose lot it is neither to draw prominence from the military department, nor beget respected aloofness from academic standing. Notwithstanding, a certain social notoriety has been accumulated during the year by the Rear Admirals' Club. This notoriety is not dependent on military or academic excellency, but rather is an outgrowth of the good comradeship existing among the fellows of the school.

The characteristics which distinguish the Rear Admirals' Club from most organizations of its nature have been embodied in the constitution. One of these characteristics is that the club dismisses members when their daily conduct shows evidence of gross suction. The other characteristic, based on the same idea, calls for dismissal of members who

become of higher than Corporal rank. However, distinctions which are based on meritorious achievement are applauded nowhere more highly than in the Rear Admirals' Club.

In connection with its serious aspects are the numerous diversions engaged in for the pleasure of the club. Incidentally, girls have been excluded from all of the social functions, and they have all been a success.

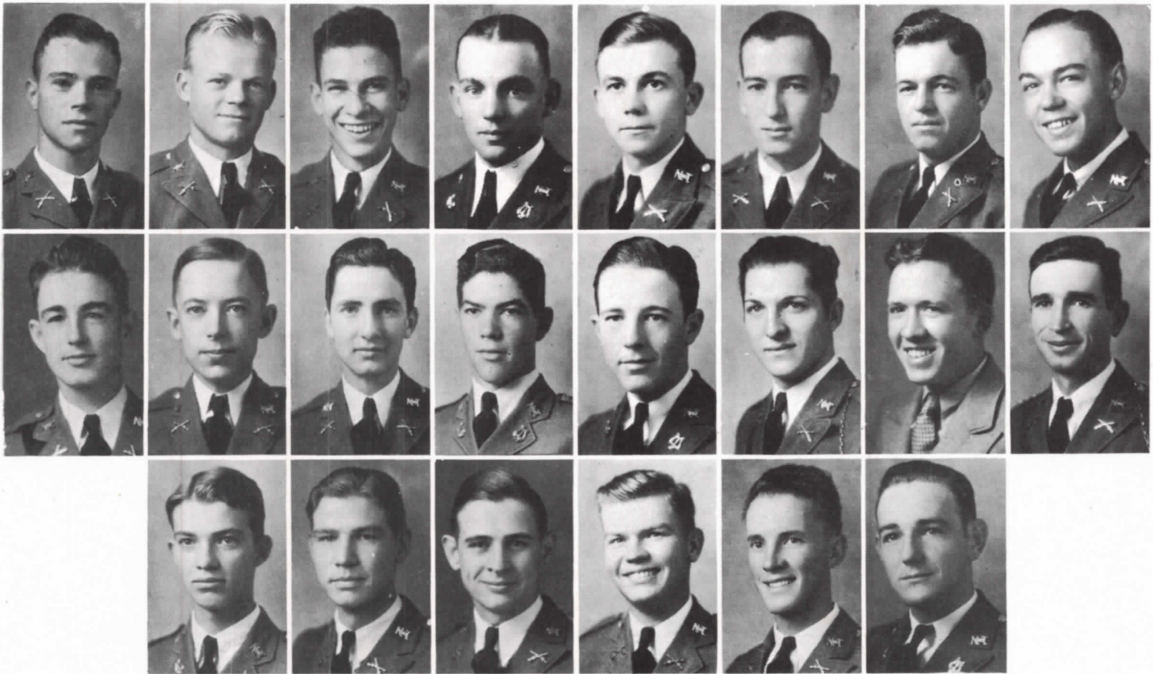

The club has accomplished its purpose in bringing together a long existent social order which hitherto has had no means of self expression.

## TENNIS CLUB

The Tennis Club was organized in 1930 with the purpose of sponsoring a tennis team each season and of offering every now and then some social diversion for the members.

Mr. Joe B. Preston is sponsor of the club and coach of the team, and in the opinion of the members of both, he fits the bill in every way.

The purpose of the founders of the club was to form a sort of student workshop through which plays are to be produced. The members are divided into different groups, each group having its own student-director and play, the cast of which is composed of college students.

Under the very able sponsorship of Mr. W. A. Ransom, the dramatic club has become one which promises much for the future. It soon will probably be one of the most important clubs on the campus.

In addition to the business problems which are brought before the club for the student's enlightenment at each monthly meeting, lessons and drills in parliamentary law of meeting procedure are given. At its annual event the club has a banquet, at which time ex-members and members of the club have a get-together meeting.

This is strictly a democratic organization, having for its object the development of individuals to meet social, civic, and industrial demands on citizenship. FUN & ADS

Since C. W. started at an early age letting the women, even Ursula, boss him, he now has a terrible complex.

Before taking the compound Nita could not stand on her feet. (The editor gives his apology for not having a picture of her after taking, as she could not be found at all.)

Little did Marie realize that when the man gave her the cook book, that that would be the turning point in her life.

The controversy started about whether Tommie or Mary Louise should sit in the chair, and it hasn't been settled yet.

Zada Zella Zilch and Zella Zada Zilch started arguing over boys at an early age, and we wonder if he was a Co-op.

When Mary Farrar was all dressed up in her ribbons and laces, little did she realize that she would ever have to spend half of her time in Chemistry lab.

George and his little brother certainly give us proof of Darwin's theory.

They laughed when I squeezed into my Chevrolet, but now I bring load after load after load of girls to N. T. A. C. every morning.

## EXTRA LARGE MURDER

By Released Wire

As a special for Monday, the criminal element of the city offered for approval three complete murders.

These supplemented the blackmail and lead pipe act usually offered on Mondays.

The parties responsible for this novel entertainment have not been located at this writing. They have been mentioned for the Pulitzer Prize for 1932. The city looks forward to future offerings by our talented citizenship.

## MUST WE SUFFER?

Of course we must suffer. Who ever heard of anything else? You might try something different for a while and tell us about it.

## POLITICAL BATTLE DUE

J. Weddington Bunch appeared in the District Court of appeals today to answer suit for a political battle.

H. M. S. Hornblow is suing Mr. Bunch for the battle, said to have been delivered under contract but never paid for.

Preliminaries should prove interesting. No holds are barred.

## Prominent Citizen To Visit Foreign Ports

Homer Eggfoot, prominent citizen, will leave (or has left) for foreign ports this week. Mr. Eggfoot made no statement as to the why of his visit other than, "See the sheriff."

## PERSONALS

Bill Walton spent the week end at Grand Prairie. On being asked why he chose to stay at his country estate, Mr. Walton replied, "Well, that's where I live."

Cecil Ramon, the yodeling cowboy, is filling an engagement at the STATE in Fort Worth. This theatre was formerly known as the Hippodrome.

Arnold Shaw was a recent visitor to Oliver Courts for no good reason.

Dr. W. A. Notsome spoke to the ladies of the W. C. T. U. at the First Methodist Presbyterian Church last evening. His subject was, "Should Camels Be Allowed to Drink Once a Week?"

Captain Keltner held an informal affair for several members of the corps Saturday afternoon. This event proved so popular that it will probably become a weekly affair.

### DOROTHY STICKS

Dear Miss Sticks:

I am very much in love with a young man that I met recently. As much as I love him there is something that makes me afraid of him. It is rumored that he chews tobacco.

What shall I do? Anxiously,

\* \* \* KAT.

Dear Kat:

Don't let him put anything over on you. Get you a package of Beechnasty and show them how they could spit when mother was a girl.

Dear Miss Sticks:

I am troubled with excess baggage that has been with me for some years now. How can I get rid of him without hurting his feelings?

Desperately,  
BILLOUSEE.

\* \* \*

Dear Billousee:

Arsenic, girlie. It is painless and quite efficient.

Same to you,  
DOT.

Dear Miss Sticks:

How may I gain social prominence and still retain my scruples? Please remit,

DUBBINSON.

\* \* \*

Dear Dubbinson:

Any person with scruples should know better than try to gain social prominence.

Sorry,  
DOROTHY.

## EDITOR'S LAST BERP

Berp—Berp—The Editor lies gasping on the floor. The staff members rush to his side (both sides) and dash cold water on his feet and scalding water on his head. This has no effect, so rubber cement is substituted for the hot water. This brings back gruesome memories and with a desperate effort, he raises himself on one elbow and knees. Another berp—slightly guttural because of the rubber cement! Even his best staff members wouldn't tell him. He raises a left eyelid to an angle of  $45^{\circ}$  centegrade ( $5 \times 180:9 \times 62\frac{1}{2}$ ). Brighteyes rushes in with  $11\frac{3}{7}$  dallydills. Normanda pats him on the cheek, and with a whimpering voice asks, "How're feeling, Chief?" He responds with a slight flicker of the said eyelid as he gurgles out, "Has it come back yet?" Orsalena Bell pipes up and says, "Hit's done come." The Chief spoke faintly now, as Needa Zilch bent low to catch his last words. She suddenly stood back, straight from the shoulders, and interpreted his gulps to be, "Thanks, pals!" He rolled over after he had found out that the annual was back from the press, and a peaceful look stole over his face. The picture below was taken just as the editor uttered a last and contented "Berp!"

Dear Dorothy,

I cannot begin to tell you how I have enjoyed knowing you these two years.

We have had lots of good times, and I hope you'll remember them with as much pleasure as I shall.

You have made N.Y.A.C. much more pleasant to me than it could have been had I not known

you. When I've been down in the dumps you've always had a smile and a kind word to cheer me on.

I think you are a swell kid and hope you have much success and happiness in the years to come.

Remember me as a true friend who thinks a lot of you - Edith Waters

## WHAT'S LIFE?

What's life? To love the things we see;  
The hills that touch the skies;  
The smiling sea; the laughing lea;  
The light in woman's eyes;  
To work and love the work we do;  
To play a game that's square;  
To grin a bit when feeling blue;  
With friends our joys to share;  
To smile, though games be lost or won;  
To earn our daily bread;—  
And when at last the day is done  
To tumble into bed.

—By Griffite Alexander.

Dear Shorty,  
 to say it is needless  
 to know you this year  
 for I think you already know  
 that. I have enjoyed  
 the pleasure of

 this thank

 fine an upper class man  
 and I will always

Dear Shorty:  
 It is with pleasure  
 that I write these  
 few words. Of all  
 the guys around here  
 you have more  
 determination and  
 stickability than  
 any I know. Hence  
 hoping that you will  
 have as good luck  
 getting through the on-  
 coming year as you  
 have this. Remember  
 W. A. Vaughan

Dear "Shorty"

You shoot as low down  
 as the lowest snake, but you  
 are a low good kid and  
 have made a big success  
 at this ok institution  
 and you probably will always  
 continue to be a success  
 because you can make  
 friends so damn easy.  
 When you are around  
 Jrenton and don't look  
 me up I will just  
 murder you.

Please don't forget
