

VERIFICATION OF RESEARCH COMPLIANCE

This form, and the required documentation, *must* be completed, signed and submitted to the UTA Graduate Office before the graduate school will perform any check of the thesis or dissertation. Preliminary or mechanical check feedback will not be given to students who do not have this VRC form on file. This form must only be submitted once unless the nature of the research (scope of work) changes.

Principal Investigator (PRINT Name): Lori Molitor Lively Date: 11-26-07

U T Arlington ID#: 1000109458 Cell/Telephone# 469-323-0688

Email: llively@lgroup.com

Supervising Professor and Department: Pat Taylor, Program in Landscape Architecture, School of Architecture

Title of Thesis or Dissertation _____

Approval by the IRB, IACUC or IBC *must* be obtained prior to initiating any research involving human subjects, vertebrate animals, rDNA, infectious agents or any other potentially biohazardous material. Research activities conducted prior to protocol approval will be disallowed. If you are uncertain about whether your project requires approval, contact the Office of Research Integrity & Compliance at (817) 272-3723.

Student Declaration

I certify that the information I have provided is accurate. I understand that if I have knowingly provided false information, I may be subject to disciplinary action in accordance with the University procedures. Such action may include disqualification of my data for satisfying course/degree requirements or dismissal from the University.

Signature of Student _____

Supervising Professor Declaration

I certify that, to the best of my knowledge, the information provided above by the student is accurate. The research was conducted under supervision and in compliance with applicable policies and regulations.

Signature of Supervising Professor _____

DO NOT WRITE BELOW THIS LINE
For Office of Research Integrity & Compliance Use Only

The research proposed in this thesis or dissertation does not require approval by either the Institutional Animal Care and Use Committee (IACUC), the Institutional Review Board (IRB) or the Institutional Biosafety Committee (IBC). **The project abstract has been reviewed and validated for compliance by ORIC Administration.**

This research has obtained approval from the IACUC, IRB or IBC. *A copy of the IRB, IACUC or IBC approval letter accompanies this form.*

Re: Exempt Approval Letter

IRB No.: 07.325e

The UTA Institutional Review Board (UTA IRB) Chair (or designee) has reviewed the above-referenced study and found that it qualified as exempt from coverage under the federal guidelines for the protection of human subjects as referenced at Title 45--Part 46.101(b)(2)(4). You are therefore authorized to begin the research as of October 24, 2007.

Please be advised that as the principal investigator, you are required to report local adverse (unanticipated) events to this office within 24 hours. In addition, pursuant to Title 45 CFR 46.103(b)(4)(iii), investigators are required to, "promptly report to the IRB any proposed changes in the research activity, and to ensure that such changes in approved research, during the period for which IRB approval has already been given, are **not initiated without IRB review and approval** except when necessary to eliminate apparent immediate hazards to the subject."

All investigators and key personnel identified in the protocol must have documented *CITI Training* on file with this office. The UTA Office of Research Administration Regulatory Services appreciates your continuing commitment to the protection of human research subjects. Should you have questions or require further assistance, please contact this office by calling (817) 272-0867.

Yours sincerely,

Judy Wilson, PhD
Associate Professor
IRB Vice-Chair
